## GETTING STARTED

Thank you for purchasing MLMPro! We will ensure that you will get the most out of it. Before installing, setting up and using MLMPro on your website, please make sure you've read this documentation completely. We have tried to cover all the important information you will require to make your experience worthwhile. We shall continue to improve the documentation, kindly check out for new documentation version release from time to time.

### About WordPress

In order to use MLMPro, you need to have WordPress installation ready. If you're not familiar in installing WordPress, there are several great online resources you can refer to:

[WordPress Codex on Installing WordPress](http://codex.wordpress.org/Installing_WordPress)

([http://codex.wordpress.org/Installing\\_WordPress](http://codex.wordpress.org/Installing_WordPress))

It's highly encouraged for you to always have the latest version of WordPress installed; this will also keep your site more secure.

To get learn more about WordPress after installing, there is a great resource from [wp.tutsplus.com](http://wp.tutsplus.com) teaching a lot of aspect in WordPress administration. Please check it out [WP101 Basix Training](http://wp.tutsplus.com/sessions/wp101-basix-training/) (<http://wp.tutsplus.com/sessions/wp101-basix-training/>)

### What's Included in the Package

- documentation
- MLMPro Folder
  - Script (Files & Folders)
- licensing
  - GPL.txt
  - README\_License.txt

## Requirements

MLMPro requires WordPress 4.4+ to run properly. To learn more about WordPress requirements, visit <http://wordpress.org/about/requirements/>. Therefore the minimum requirement of WordPress 4.4 is needed.

- PHP version 5.4 or greater
- MySQL version 5.0 or greater

Important quote from WordPress site:

*Hosting is more secure when PHP applications, like WordPress, are run using your account's username instead of the server's default shared username. The most common way nowadays for hosting companies to do this is using suPHP. Just ask your potential host if they run suPHP or something similar.*

## FEATURES

1. Multi-stage MLM Functions (with multiple matrices and highly extendable)
2. Feeder intro level (Pawn Star 2X1) and five stages (Rook Star 2X3, Knight Star 2X3, Bishop Star 2X3, King Star 2X3, Queen Star 2X2)

27. Notification System via Email
28. SEO Friendly URL
29. Easy sub-account creation
30. Supports unlimited referrals and even extendable.
31. And much more.

## HOW IT WORKS

MLMPro is a custom-built MLM Affiliate Marketing Script having Forced Matrix with Spill-over/Spill-under functionalities. The software allows easy recruitment and management of new affiliates into the MLM system. Both affiliates and administrators have their unique back office and backend access respectively. Start using this software today and watch your organization grow.

## INSTALLATION & SETUP

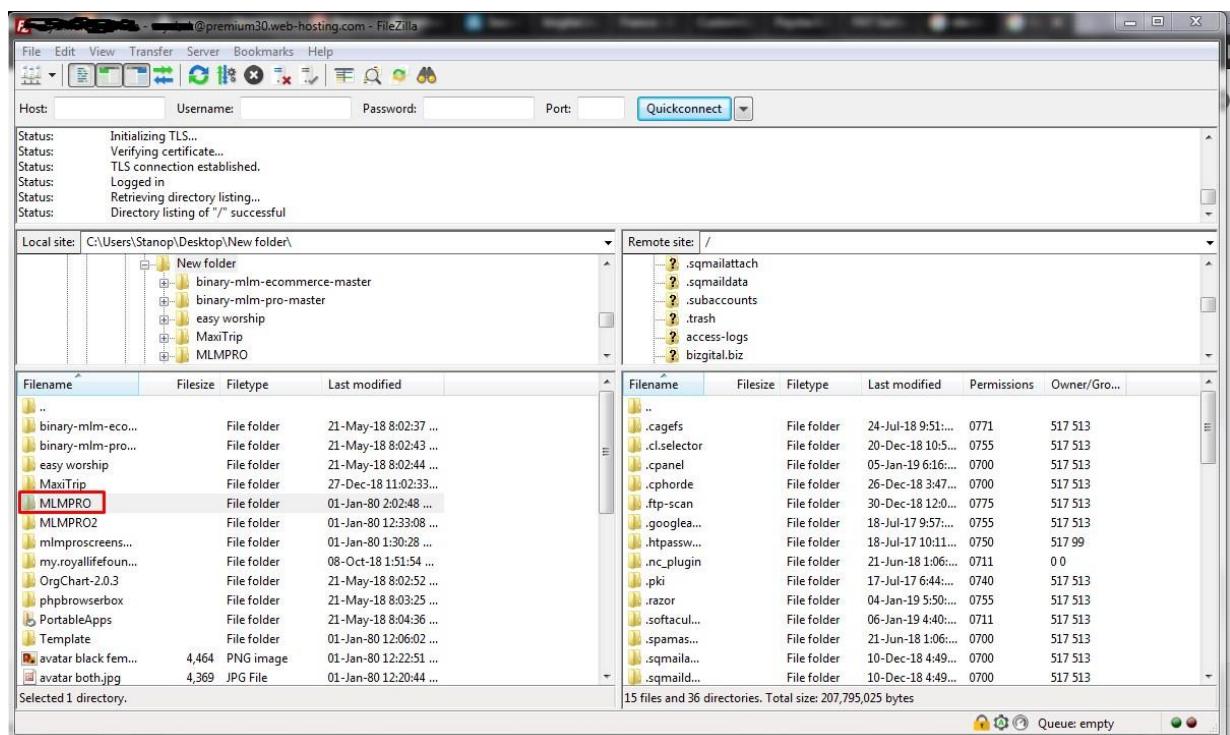

Installing MLMPro is easy and takes less than 5 minutes. This section will explain how to setup MLMPro script. Please, note that this software is not a plugin cannot be installed through the plugin or theme Uploader on your WordPress admin dashboard.

There are two ways to install this script: through FTP or Cpanel File Explorer. Before installing the script, you must first download MLMPro installation files from your Themeforest account. Next, unzip the downloaded package to a folder on your hard drive. After extracting the file you will find some folders and a zipped file "MLMPro.zip" in the root of your folder. That folder contains your installation files and other folders.

### To install through FTP:

You can use FileZilla or any FTP client you are comfortable working with.

- Unzip the **MLMPro.zip** file to a folder on your hard drive.
- Upload the **MLMPro.zip** folder inside the folder above to the WordPress' domain wp-content folder (example: <http://yourserver/wordpress/wp-content/>) on your server using FTP.

- Locate "Readme" file in the installation package and follow configuration steps
- You are good to go!

## To install through CPanel:

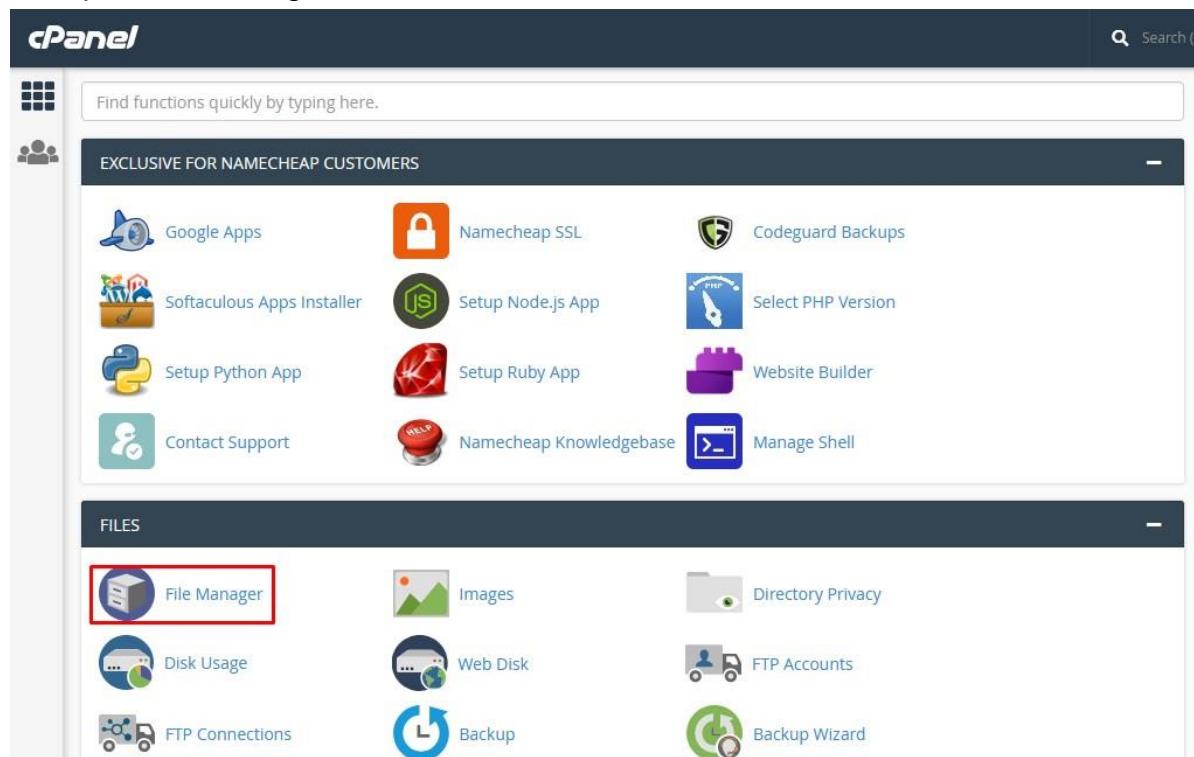

- Login to your Cpanel account

Need help? We're always here for you.

[Chat with a Live Person](#)

- Open File Manager

The screenshot shows the cPanel interface with the following visible elements:

- Header:** cPanel, Search bar.
- EXCLUSIVE FOR NAMECHEAP CUSTOMERS:** A row of icons and links:
  - Google Apps
  - Namecheap SSL
  - Codeguard Backups
  - Softaculous Apps Installer
  - Setup Node.js App
  - Select PHP Version
  - Setup Python App
  - Setup Ruby App
  - Website Builder
  - Contact Support
  - Namecheap Knowledgebase
  - Manage Shell
- FILES Section:** A grid of icons and links:
  - File Manager** (highlighted with a red box)
  - Images
  - Directory Privacy
  - Disk Usage
  - Web Disk
  - FTP Accounts
  - FTP Connections
  - Backup
  - Backup Wizard

- Navigate to your domain on File Explorer

STEP 2: Click Upload and select MLMPro.zip from your local disk.

- Locate Upload, and click on it (a new window should open)
- Select “MLMPro.zip” from your local drive

Select the file you want to upload to “/home/royalrvk”.

Maximum file size allowed for upload: ∞

Overwrite existing files

Drop files here to start uploading

or

Select File

- Upload will start automatically if you have good network connection
- After Upload, right click the folder to unzip it.
- Locate “Readme” file in the installation package and follow configuration steps
- You are good to go!

## SCREENSHOTS (Zoom page to view better)

This screenshot shows the MLMPro Dashboard for a user named Doe, John. The dashboard includes a profile section with basic information: Username (Doe, John), Password (test), Country (Country), and Phone (123456789). Below this are several performance metrics: e-Wallet Balance (\$5.00), Purchases (\$), Direct Members (0), Total Downlines (0), Unpaid e-Pins (0), Pawn (Current Days), and Message/Tickets (0). A note at the bottom left says "Lightshot screenshot saved to Dashboard Logon. Click here to open in the folder."

This screenshot shows the MLMPro Login page. It features a login form with fields for Username, Password, and e-Pin. Below the form is a note: "Not yet a member? Register Here". The background shows a blurred image of a desk with a laptop and a vase of flowers.

This screenshot shows the MLMPro E-Wallet Balance section. It displays various financial metrics in a grid format: Total e-Wallet Balance (\$5.00), Total Referral Bonus (\$), Total Matrix Bonus (\$), Total StepOut Bonus (\$), Total Credit (\$0.00), and Total Received (\$). A button at the bottom left says "Login to Use the e-Wallet".

This screenshot shows the MLMPro Generate E-Pins section. It has a form for "Add Pins" with a "No. of Pins" field and a "Generate Pins" button. A note above the form says "Generate Pins".

This screenshot shows the MLMPro Referral section. It includes a "My Membership Link" field with the URL <https://www.mlipro.com/register/?id=MLM67289827>, a "Send Invitation" button, and fields for "Email Address" and "Phone No.". Below these is a "Message" field and an "Invite" button.

This screenshot shows the MLMPro "Create a new Account" page. It includes fields for "Sponsor ID" (Your Sponsor ID: test, Member ID: RL2018030001), "e-Pin Code" (4761124), and "Logon Details" (Username, Password, Confirm Password, Transaction Password, Confirm Transaction Password). A note at the top says "Please note, mandatory fields are marked with \*".

This screenshot shows the MLMPro "Withdrawal Request" page. It displays an "Available Balance is: \$5.00". The form includes fields for "Request Date" (December 18, 2018), "Amount(= \$)", "Transaction Password", and "Transaction Authorisation Password". A note at the top says "Note: There is a 5% Admin Processing fee on the amount withdrawn. Minimum withdrawable balance is \$3." and "You will be paid the equivalent in your country's currency". A "Submit" button is at the bottom right.

This screenshot shows the MLMPro mobile app dashboard for the user Doe, John. The dashboard includes a sidebar with navigation links: Dashboard, New Membership, Profile, Network, E-Wallet, E-Pin, Message/Ticket, Referral, and Log Out. The main area shows a summary of the user's profile and activity.

## **SUPPORT & F.A.Q**

Even though this script doesn't get supported because of other projects on our hands, we will do our best to answer some questions as much as we can.

### **Support Email:**
